EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Election/Restrictions

2. Claims 1-6 and 11-16 are allowable. The restriction requirement, as set forth in the Office action mailed on 22 June 2005, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 7-10 and 17-20, directed to non-elected species, are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. The application has been amended as follows: The term "a" has been replaced with the term --thee-- prior to the terms "rim" and spoke" in lines 2-3 of claims 7 and 17.

The phrase "is lowered down" has been replaced with the term --extends-- in claims 8 and 18.

The term "the" has been replaced with the term --a-- prior to the term "rivet" in claims 9 and 19.

These corrections are for grammatical clarity and to more clearly define the invention.

Drawings

4. The drawings were received on 10 February 2004. These drawings are acceptable.

Allowable Subject Matter

5. Claims 1-20 are allowed.

6. The following is an examiner's statement of reasons for allowance: The Applicant's statement that the Bunya et al reference was commonly owned at the time of the invention of the instant invention is sufficient to overcome the Bunya et al reference. Therefore, the prior art does not show or suggest a wheel having a tire pressure sensing system that includes a sensor mounted at a boundary between the

rim and a spoke, wherein the sensor is radially spaced from the wheel and is exposed to the interior of the tire.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
